1002	It was pretty easy to add a new IU. It seems they recost automatically upon "save". If I leave the "quantity" field empty, it won't re-cost.But if I just enter "1" in the "Qty" field, it will re-cost when I enter a "1" in the "Repl. Qty." field. But if I enter "1" in the "Qty" field and "2" in the "Repl. Qty." field, it won't give me an error like CAIS 5.3 does - it just prices the two units. Then if I hit the browser's "back" button to change a quantity, the costs go to zero and won't re-cost.	Gary Hoe/SNL	1	1	Bug	Yes	CAIS Web	Do not use the Back & Forward Buttons	07/07/06
